How Does
The Program Benefit You?

Professional Monitoring Around The Clock!

Our proprietary 24/7 remote monitoring systems are responsible for protecting hundreds of thousands of customers of our Fortune 1000 clients and now – they are available to you. We'll know if your system is underperforming, *often before you do.*

If your system requires maintenance, our team will notify you and dispatch a technician to resolve the issue!

Live Support | 100% Covered Maintenance

100% covered system maintenance for all system parts and components — including wiring and inverters.

Toll free unlimited access to our Seattle Operations Center providing live, real-time diagnostics of your system by solar experts.

Complimentary Quarterly Performance Reports, verifying the health of your system.

Energy, *Guaranteed.* Or We Pay You!

Every year – if your system generates less than 95% of forecasted energy, we pay you for annual energy loss. Homeowners are responsible for keeping panels clean and free of shading – but if you need to take action – we'll let you know!
